Our Timeline

1996

Establishment

Driven by our passion for global logistics, our founder, Lilly Cabrera opened the first humble office in 1996, inspired by her father's wisdom: "There's always something that needs to be shipped".

2008

Globalization

Our determination and hard work paid off as we expanded our business abroad and opened our first international office in Venezuela. Our globalization soon after spread to Panama, China, Mexico, and five more cities in Venezuela.

2017

Expansion

To provide more services and value to our customers, we opened our first Warehouse and Free Trade Zone in Miami.

2019

Going Vertical

Our next mission is to grow vertically. Our first ocean vessel made its inaugural voyage on January 10th, and our first domestic trucking hit the roads April 2019.
