ShipLilly

WAREHOUSING, TRANSPORTATION + LOGISTICS

Your project - Our goal

Overview

Dedicated to making your business reliable and efficient, we at ShipLilly are masters of streamlining your supply chain logistics and offering cost-effective solutions.

We are international logistics experts committed to providing our customers with effective transportation, logistics, warehousing and e-Commerce solutions.

“

*“Amazon, without their
supply chain logistics, would
be just another Ebay.”*

Nelson R. Cabrera
CEO

1996

Establishment

Driven by an intense passion for global logistics, our founder, Lilly Cabrera opened the first humble office in 1996, inspired by her father's wisdom: "There is always something that needs to be shipped".

2008

Globalization

Our determination and hard work paid off as we expanded our business abroad and opened our first international office in Venezuela. Offices in Panama, China, Mexico, and five more cities in Venezuela followed the years after.

2017

Expansion

With our customers needs in mind we expanded our portfolio and value added services to our customers by opening our first warehouse and Free Trade Zone (FTZ) in Miami Florida.

2019

Going Vertical

Our next mission is to grow vertically. Our first feeder made its inaugural voyage on January officially consolidating our company as a VOCC, and our first domestic trucking fleet hit the roads on April.

Our Timeline

22 years of presence in the global trade and logistics industry are proof of our expertise and commitment to our client's success by offering an ever-growing portfolio of services and solutions worldwide.

Ocean Freight

Ocean freight - the most cost-effective and convenient type of transport for your goods, worldwide.

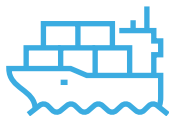

FCL

LCL

Reefers

Break Bulk

Hazardous
